## ~ Posts EPS of \$1.41

# ~~ Announces orders for 3,000 units with average sales price of \$103,000

LAKE OSWEGO, Ore., April 5, 2016 / PRNewswire -- The Greenbrier Companies, Inc. (NYSE: GBX) today reported financial results for its second fiscal quarter ended February 29, 2016.

### **Second Quarter Highlights**

- Net earnings attributable to Greenbrier for the quarter were \$44.9 million, or \$1.41 per diluted share, on revenue of \$669.1 million.
- Adjusted EBITDA for the quarter was \$108.2 million, or 16.2% of revenue.
- Net debt was reduced by over \$175 million during the quarter. Net debt to LTM EBITDA down to 0.2x.
- New railcar backlog as of February 29, 2016 was 34,100 units with an estimated value of \$4.0 billion (average unit sale price of \$116,000), compared to 36,000 units with an estimated value of \$4.1 billion (average unit sale price of \$115,000) as of November 30, 2015.
- Diversified orders for 3,000 new railcars were received during the quarter, valued at nearly \$310 million, or an average price of approximately \$103,000 per railcar.
- New railcar deliveries totaled 4,500 units for the quarter, compared to 6,900 units for the quarter ended November 30, 2015.
- Marine backlog as of February 29, 2016 was approximately \$18 million.
- Board declared a quarterly dividend of \$0.20 per share payable on May 4, 2016 to shareholders of record as of April 13, 2016. This marks the seventh straight quarterly dividend.
- Repurchased 533,061 shares of common stock at a cost of \$13.3 million during the quarter.
   Board authorization for approximately \$88.0 million remains available for further share repurchases.
- Subsequent to quarter end, formed a 50/50 joint venture with Sumitomo Corporation of Americas to establish a leading axle machining facility on West Coast.

# <u>Progress on Longer Term Financial Goals</u>

- Second quarter aggregate gross margin, excluding the syndication of a railcar portfolio acquired in our first quarter, was 20.0%, consistent with our goal of at least 20% gross margin by the second half of fiscal 2016. The syndication generated high rates of return; however, the margin percentage had a dilutive impact, resulting in aggregate gross margin of 17.9%.
- Second quarter annualized ROIC of 31.0% continues ROIC performance above 25% for the second consecutive quarter. We expect to maintain or exceed our 25% ROIC target for the second half of fiscal 2016.

William A. Furman, Chairman and CEO said, "Greenbrier delivered solid results again this quarter

across all business units. Our leasing and management services business profitably syndicated the majority of the 4,000 railcar portfolio acquired in our first quarter. We continue to manage these assets and earn fee income, deriving the benefits of our strong balance sheet and integrated model. Based on our current outlook, we remain on track to achieve our fiscal 2016 guidance for deliveries, revenue and diluted EPS."

Furman added, "Greenbrier has transformed itself through the ongoing contributions of our employees and partners. Over the past five years, we have refined our business model and as industry demand moderates and customer requirements shift to different railcar types, Greenbrier is well-positioned. In recent years, we have diversified our product mix, and launched new high-value products while developing a low cost, flexible, international manufacturing base. Our aftermarket businesses in railcar repair, wheels and parts provide ongoing stability. In an extension of our aftermarket business, I am pleased to announce that we have formed GBSummit, a 50/50 joint venture with Sumitomo Corporation of Americas. When it opens in early 2017, GBSummit will be the preeminent axle machining location on the US West Coast that supports growing intermodal rail activity and will create value for our customers and partners."

Furman concluded, "Greenbrier is adapting well to the present industry and economic climate. We enjoy a diversified backlog, with non-energy related railcars representing 83% of our total backlog. Our healthy backlog and our integrated business model, unique in the industry, position us for steady performance into 2017 and beyond. Greenbrier has a strong balance sheet and we will continue to strategically invest globally in assets and projects generating high rates of return while returning capital to shareholders."

#### **Business Outlook**

Based on current business trends and production schedules for fiscal 2016, Greenbrier narrows previously provided guidance for:

- New railcar deliveries to be approximately 20,000 22,000 units
- Revenue to exceed \$2.8 billion
- Diluted EPS in the range of \$5.70 to \$6.10

We expect financial results to be weighted toward the first half of the year primarily due to line changeovers, product mix changes and lower production rates on certain lines in the second half of fiscal 2016.

As noted in the "Safe Harbor" statement, there are risks to achieving this guidance. Certain orders and backlog in this release are subject to customary documentation and completion of terms.

## **Financial Summary**

	Q2	Q1	Sequential Comparison – Main Drivers
	FY16	FY16	
Revenue	\$669.1M	\$802.4M	Down 16.6% primarily due to decreased deliveries

Gross margin	17.9%	23.0%	Down 510 bps due to inefficiencies associated with product line changeovers and marine production, and lower margin percentage on the syndication of acquired railcar portfolio
Selling and administrative expense	\$38.2M	\$36.5M	Up 4.7% primarily due to consulting and higher employee related costs
Gain on disposition of equipment	\$10.7M	\$0.3M	Timing of sales fluctuates and is opportunistic
Adjusted EBITDA	\$108.2M	\$161.8M	Down 33.1% driven by lower deliveries and gross margin
Effective tax rate	28.3%	31.3%	Reflects a change in the geographic mix of earnings and the effects of discrete items
Net earnings attributable to noncontrolling interest	\$21.3M	\$29.3M	Driven by timing of deliveries and margin from our GIMSA JV
Net earnings	\$44.9M	\$69.4M	
Diluted EPS	\$1.41	\$2.15	

# **Segment Summary**

	Q2 FY16	Q1 FY16	Sequential Comparison – Main Drivers
Manufacturing	1		<u>l</u>
Revenue	\$454.5M	\$698.7M	Down 35.0% primarily due to lower deliveries
Gross margin	20.4%	23.7%	Down 330 bps due to lower syndication volume and inefficiencies associated with line changeovers and marine production
Operating margin <sup>(1)</sup>	17.3%	22.0%	
Deliveries	4,500	6,900	
Wheels & Parts	•		
Revenue	\$90.5M	\$78.7M	Up 15.0% primarily attributable to a seasonal increase in wheel and component volumes and more favorable product mix
Gross margin	10.0%	7.3%	Up 270 bps primarily due to higher sales volumes and more favorable product mix
Operating margin <sup>(1)</sup>	7.2%	4.3%	
Leasing & Service	ces		
Revenue	\$124.1M	\$25.0M	Up due to the sale of acquired railcar portfolio
Gross margin	14.6%	53.6%	Down due to lower margin on the syndication of acquired railcar portfolio; excluding this activity, gross margin is 51.1%
Operating margin <sup>(1)</sup> <sup>(2)</sup>	19.7%	39.8%	
Lease fleet utilization	86.0%	89.0%	Decline driven by sale of leased railcars; number of off-lease railcars modestly lower than Q1

<sup>(1)</sup> See supplemental segment information on page 11 for additional information.

## **Conference Call**

Greenbrier will host a teleconference to discuss its second quarter 2016 results. In conjunction with

 $<sup>^{(2)}</sup>$  Includes Net gain on disposition of equipment, which is excluded from gross margin.

this news release, Greenbrier has posted a supplemental earnings presentation to our website. Teleconference details are as follows:

- April 5, 2016
- 8:00 a.m. Pacific Daylight Time
- Phone: 1-630-395-0143, Password: "Greenbrier"
- Real-time Audio Access: ("Newsroom" at <a href="http://www.gbrx.com">http://www.gbrx.com</a>)

Please access the site 10 minutes prior to the start time.

#### **About Greenbrier**

Greenbrier (www.gbrx.com), headquartered in Lake Oswego, Oregon, is a leading supplier of transportation equipment and services to the railroad industry. Greenbrier builds new railroad freight cars in manufacturing facilities in the U.S., Mexico and Poland and marine barges at our U.S. manufacturing facility. Greenbrier sells reconditioned wheel sets and provides wheel services at locations throughout the U.S. We recondition, manufacture and sell railcar parts at various U.S. sites. Through GBW Railcar Services, LLC, a 50/50 joint venture with Watco Companies, LLC, freight cars are repaired and refurbished at over 30 locations across North America, including more than 10 tank car repair and maintenance facilities certified by the Association of American Railroads. Greenbrier owns a lease fleet of over 9,000 railcars and performs management services for over 250,000 railcars.

"SAFE HARBOR" STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995: This press release may contain forward-looking statements, including statements regarding expected new railcar production volumes and schedules, expected customer demand for the Company's products and services, plans to adjust manufacturing capacity, restructuring plans, new railcar delivery volumes and schedules, changes in demand for the Company's railcar services and parts business, and the Company's future financial performance. Greenbrier uses words such as "anticipates," "believes," "forecast," "potential," "goal," "contemplates," "expects," "intends," "plans," "projects," "hopes," "seeks," "estimates," "strategy," "could," "would," "should," "likely," "will," "may," "can," "designed to," "future," "foreseeable future" and similar expressions to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to certain risks and uncertainties that could cause actual results to differ materially from in the results contemplated by the forward-looking statements. Factors that might cause such a difference include, but are not limited to, reported backlog and awards are not indicative of our financial results; uncertainty or changes in the credit markets and financial services industry; high levels of indebtedness and compliance with the terms of our indebtedness; write-downs of goodwill, intangibles and other assets in future periods; sufficient availability of borrowing capacity; fluctuations in demand for newly manufactured railcars or failure to obtain orders as anticipated in developing forecasts; loss of one or more significant customers; customer payment defaults or related issues; sovereign risk to contracts, exchange rates or property rights; actual future costs and the availability

of materials and a trained workforce; failure to design or manufacture new products or technologies or to achieve certification or market acceptance of new products or technologies; steel or specialty component price fluctuations and availability and scrap surcharges; changes in product mix and the mix between segments; labor disputes, energy shortages or operating difficulties that might disrupt manufacturing operations or the flow of cargo; production difficulties and product delivery delays as a result of, among other matters, costs or inefficiencies associated with expansion, start-up or changing of production lines or changes in production rates, changing technologies, transfer of production between facilities or non-performance of alliance partners, subcontractors or suppliers; ability to obtain suitable contracts for the sale of leased equipment and risks related to car hire and residual values; integration of current or future acquisitions and establishment of joint ventures; succession planning; discovery of defects in railcars or services resulting in increased warranty costs or litigation; physical damage or product or service liability claims that exceed our insurance coverage; train derailments or other accidents or claims that could subject us to legal claims; actions or inactions by various regulatory agencies including potential environmental remediation obligations or changing tank car or other rail car or railroad regulation; and issues arising from investigations of whistleblower complaints; all as may be discussed in more detail under the headings "Risk Factors" and "Forward Looking Statements" in our Annual Report on Form 10-K for the fiscal year ended August 31, 2015, and our other reports on file with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. Except as otherwise required by law, we do not assume any obligation to update any forward-looking statements.

Adjusted EBITDA is not a financial measure under generally accepted accounting principles (GAAP). We define Adjusted EBITDA as Net earnings before Interest and foreign exchange, Income tax expense, Depreciation and amortization. Adjusted EBITDA is a performance measurement tool commonly used by rail supply companies and Greenbrier. You should not consider Adjusted EBITDA in isolation or as a substitute for other financial statement data determined in accordance with GAAP. In addition, because Adjusted EBITDA is not a measure of financial performance under GAAP and is susceptible to varying calculations, this measure presented may differ from and may not be comparable to similarly titled measures used by other companies.

Annualized ROIC is calculated by taking year to date Earnings from operations, less cash paid for income taxes, net, which is then annualized and divided by the average balance of the sum of the Revolving notes, plus Notes payable, plus Total equity, less cash in excess of \$40 million. The average is calculated based on the quarterly ending balances.

#### THE GREENBRIER COMPANIES, INC.

### Supplemental Information

(In thousands, except per share amounts, unaudited)

### Reconciliation of common shares outstanding and diluted earnings per share

The shares used in the computation of the Company's basic and diluted earnings per common share are reconciled as follows:

	Three Months Ended			
	February 29, 2016	November 30, 2015		
Weighted average basic common shares outstanding (1)	29,098	29,391		
Dilutive effect of convertible notes (2)	3,203	3,177		
Dilutive effect of performance awards (3)	59	10		
Weighted average diluted common shares outstanding	32,360	32,578		

<sup>(1)</sup> Restricted stock grants and restricted stock units, including some grants subject to certain performance criteria, are included in weighted average basic common shares outstanding when the Company is in a net earnings position.

- The dilutive effect of the 2018 Convertible notes are included in the Weighted average diluted common shares outstanding as they were considered dilutive under the "if converted" method as further discussed below. The dilutive effect of the 2026 Convertible notes are excluded in the Weighted average diluted common shares outstanding as the average stock price during the periods did not exceed the applicable conversion price.
- Restricted stock units subject to performance criteria, for which actual levels of performance above target have been achieved, and are included in Weighted average diluted shares outstanding when the company is in a net earnings position.

Diluted earnings per share was calculated using the more dilutive of two approaches. The first approach includes the dilutive effect, using the treasury stock method, associated with shares underlying the 2026 Convertible notes and performance based restricted stock units that are subject to performance criteria, for which actual levels of performance above target have been achieved. The second approach supplements the first by including the "if converted" effect of the 2018 Convertible notes issued in March 2011. Under the "if converted method" debt issuance and interest costs, both net of tax, associated with the convertible notes are added back to net earnings and the share count is increased by the shares underlying the convertible notes.
