To register for or access the webcast, click on the announcement shown on the home page of the Greenbrier website. The webcast will be archived for 90 days.

About Greenbrier

Greenbrier (www.gbrx.com), headquartered in Lake Oswego, Oregon, is a leading international supplier of equipment and services to the freight rail transportation markets. Greenbrier designs, builds and markets freight railcars in North America and Europe, we build freight railcars and rail castings in Brazil through a strategic partnership, and build and market marine barges in North America. Recently, through our European manufacturing operations, we also began delivery of US-designed tank cars in Saudi Arabia. In October 2016, we entered into an agreement with Astra Rail Management GmbH to form a new company, Greenbrier-Astra Rail, which will create an end-to-end, Europe-based freight railcar manufacturing, engineering and repair business. We expect this combination will be completed during 2017. We are a leading provider of wheel services, parts, leasing and other services to the railroad and related transportation industries in North America and a provider of freight railcar repair, refurbishment and retrofitting services in North America through a joint venture partnership with Watco Companies, LLC. Through other joint ventures we produce rail castings, tank heads and other railcar components. Greenbrier owns a lease fleet of over 9,000 railcars and performs management services for over 268,000 railcars.
