~ Announces orders of 3,800 railcars valued at nearly \$450 million

~~ New railcar backlog of 26,000 units valued at \$2.7 billion

~~ Updates FY19 Guidance

LAKE OSWEGO, Ore., April 5, 2019 / PRNewswire -- The Greenbrier Companies, Inc. (NYSE: GBX) today reported financial results for its second fiscal quarter ended February 28, 2019.

Second Quarter Highlights

- Net earnings attributable to Greenbrier for the quarter were \$2.8 million, or \$0.08 per diluted share, on revenue of \$658.7 million. Quarterly results included \$4.7 million, or \$0.14 per diluted share, related to loss accruals on certain railcar contracts and facility closure costs in the railcar repair operations.
- Adjusted EBITDA for the quarter was \$37.4 million, or 5.7% of revenue, and included \$7.6 million related to railcar contract loss accruals and facility closure costs.
- Orders for 3,800 diversified railcars were received during the quarter, valued at nearly \$450 million.
- New railcar backlog as of February 28, 2019 was 26,000 units with an estimated value of \$2.7 billion.
- New railcar deliveries totaled 5,100 units for the quarter.
- Board declares quarterly dividend of \$0.25 per share, payable on May 15, 2019 to shareholders as
 of April 24, 2019.

William A. Furman, Chairman and CEO, said, "Order activity, railcar deliveries and revenue generation highlighted Greenbrier's fiscal second quarter. However, our earnings performance was underwhelming, reflecting what we believe will be a single disappointing quarter. Greenbrier's fiscal second quarter was expected to be the least profitable of fiscal 2019. Planned production line changeovers temporarily reduced manufacturing efficiency in the quarter. These expected operating disruptions were compounded by the railcar contract loss accruals in Europe and Gunderson and the facility closure costs in our railcar repair network that we communicated on March 22. Greenbrier is actively addressing these performance issues. We expect to quickly resolve them."

Furman concluded, "Over the balance of fiscal 2019, Greenbrier's financial performance and profitability will significantly improve compared to the first half of fiscal 2019. As a result, revenue and delivery estimates for fiscal 2019 are unchanged and we have updated EPS guidance today to reflect the impact of the unique operating challenges in the fiscal second quarter. Greenbrier's backlog of 26,000 units valued at \$2.7 billion will produce sustained railcar deliveries through fiscal 2019 and provides good visibility into fiscal 2020. Our strong balance sheet, manufacturing flexibility and product innovation position us to successfully address a dynamic market environment and continue to grow at scale. We remain confident in Greenbrier's long-term growth strategy and integrated business model."

Fiscal 2019 Business Update

With approximately 95% of fiscal 2019 production in backlog, and based on current business trends, Greenbrier believes:

- Deliveries will be approximately 24,000 26,000 units including Greenbrier-Maxion (Brazil) (which will account for approximately 2,000 units).
- Revenue will exceed \$3.0 billion.
- Diluted EPS will be \$3.60 \$3.80 excluding the \$0.14 per share related to railcar contract loss accruals and closure costs in the fiscal second quarter.

As noted in the "Safe Harbor" statement, there are risks to achieving this guidance. Certain orders and backlog in this release are subject to customary documentation and completion of terms.

Financial Summary

	Q2 FY19	Q1 FY19	Sequential Comparison – Main Drivers
Revenue	\$658.7M	\$604.5M	Up 9.0% primarily due to increased external syndication activity and higher wheel and component volumes
Gross margin	8.2%	12.0%	Decrease driven by lower manufacturing efficiencies, including multiple line change overs, railcar contract loss accruals and closure costs
Selling and administrative expense	\$47.9M	\$50.4M	Down 5.0% primarily due to lower employee related costs
Gain on disposition of equipment	\$12.1M	\$14.4M	Reflects continued rebalancing of lease portfolio
Adjusted EBITDA	\$37.4M	\$57.6M	Lower operating earnings including the \$7.6 million of closure costs and railcar contract loss accruals in Q2
Effective tax rate	25.5%	28.5%	
Earnings (loss) from unconsolidated affiliates	(\$0.8M)	\$0.5M	Continued volatility in Brazilian operations
Net earnings attributable to noncontrolling interest	\$3.0M	\$5.4M	Change primarily impacted by partner share of European losses
Net earnings attributable to Greenbrier	\$2.8M	\$18.0M	Change includes \$4.7 million from railcar contract loss accruals and closure costs, lower operating earnings and higher foreign exchange losses
Diluted EPS	\$0.08	\$0.54	Includes \$0.14 per share from railcar contract loss accruals and closure costs

These forward-looking statements are not guarantees of future performance and are subject to certain risks and

uncertainties that could cause actual results to differ materially from the results contemplated by the forward-looking statements. Factors that might cause such a difference include, but are not limited to, reported backlog and awards that are not indicative of Greenbrier's financial results; uncertainty or changes in the credit markets and financial services industry; high levels of indebtedness and compliance with the terms of Greenbrier's indebtedness; write-downs of goodwill, intangibles and other assets in future periods; sufficient availability of borrowing capacity; fluctuations in demand for newly manufactured railcars or failure to obtain orders as anticipated in developing forecasts; loss of one or more significant customers; customer payment defaults or related issues; policies and priorities of the federal government regarding international trade, taxation and infrastructure; sovereign risk to contracts, exchange rates or property rights; actual future costs and the availability of materials and a trained workforce; failure to design or manufacture new products or technologies or to achieve certification or market acceptance of new products or technologies; steel or specialty component price fluctuations and availability and scrap surcharges; changes in product mix and the mix between segments; labor disputes, energy shortages or operating difficulties that might disrupt manufacturing operations or the flow of cargo; production difficulties and product delivery delays as a result of, among other matters. costs or inefficiencies associated with expansion, start-up, or changing of production lines or changes in production rates, changing technologies, transfer of production between facilities or non-performance of alliance partners, subcontractors or suppliers; ability to obtain suitable contracts for the sale of leased equipment and risks related to car hire and residual values; integration of current or future acquisitions and establishment of joint ventures; succession planning; discovery of defects in railcars or services resulting in increased warranty costs or litigation; physical damage or product or service liability claims that exceed Greenbrier's insurance coverage; train derailments or other accidents or claims that could subject Greenbrier to legal claims; actions or inactions by various regulatory agencies including potential environmental remediation obligations or changing tank car or other railcar or railroad regulation; and issues arising from investigations of whistleblower complaints; all as may be discussed in more detail under the headings "Risk Factors" and "Forward Looking Statements" in Greenbrier's Annual Report on Form 10-K for the fiscal year ended August 31, 2018, Greenbrier's Quarterly Report on Form 10-Q for the fiscal guarter ended November 30, 2018, and Greenbrier's other reports on file with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. Except as otherwise required by law, Greenbrier does not assume any obligation to update any forward-looking statements.

Adjusted EBITDA, Adjusted net earnings attributable to Greenbrier, Adjusted diluted EPS and Diluted earnings per share range excluding railcar contract loss accruals and closure costs are not financial measures under generally accepted accounting principles (GAAP). These metrics are performance measurement tools commonly used by rail supply companies and Greenbrier. You should not consider these metrics in isolation or as a substitute for other financial statement data determined in accordance with GAAP. In addition, because these metrics are not a measure of financial performance under GAAP and are susceptible to varying calculations, the measures presented may differ from and may not be comparable to similarly titled measures used by other companies.

We define Adjusted EBITDA as Net earnings before Interest and foreign exchange, Income tax expense (benefit), Depreciation and amortization and excluding the impact associated with items we do not

believe are indicative of our core business or which affect comparability. We believe the presentation of Adjusted EBITDA provides useful information as it excludes the impact of financing, foreign exchange, income taxes and the accounting effects of capital spending. These items may vary for different companies for reasons unrelated to the overall operating performance of a company's core business. We believe this assists in comparing our performance across reporting periods.

Adjusted net earnings attributable to Greenbrier and Adjusted diluted EPS excludes the impact associated with items we do not believe are indicative of our core business or which affect comparability. Diluted earnings per share range excluding railcar contract loss accruals and closure costs exclude railcar contract loss accruals and closure costs. We believe these assist in comparing our performance across reporting periods.

⁽¹⁾ Quarterly amounts do not total to the year to date amount as each period is calculated discretely. Diluted earnings per common share excludes the dilutive effect of the 2024 Convertible Notes, since the average stock price was less than the applicable conversion price and therefore was considered anti-dilutive, but includes restricted stock units that are not considered participating securities and restricted stock units that are subject to performance criteria, for which actual levels of performance above target have been achieved, when dilutive and the dilutive effect of shares underlying the 2018 Convertible Notes using the "if converted" method in which debt issuance and interest costs, net of tax, were added back to net earnings. The 2018 Convertible Notes matured on April 1, 2018.

Reconciliation of common shares outstanding

The shares used in the computation of the Company's basic and diluted earnings per common share are reconciled as follows:

	Three Months Ended		
	February 28,	November 30,	
	2019	2018	
Weighted average basic common shares outstanding (1)	32,628	32,640	
Dilutive effect of convertible notes ⁽²⁾	-	-	
Dilutive effect of performance awards (3)	578	453	
Weighted average diluted common shares outstanding	33,206	33,093	

- (1) Restricted stock grants and restricted stock units that are considered participating securities, including some grants subject to certain performance criteria, are included in weighted average basic common shares outstanding when the Company is in a net earnings position.
- (2) The dilutive effect of the 2024 Convertible notes was excluded for the three months ended February 28, 2019 and November 30, 2018 as the average stock price was less than the applicable conversion price and therefore was considered anti-dilutive.
- (3) Restricted stock units that are not considered participating securities and restricted stock units subject to performance criteria, for which actual levels of performance above target have been achieved, are included in Weighted average diluted shares outstanding when the Company is in a net earnings position.

Reconciliation of diluted earnings per share range

	August 31, 2019
Diluted earnings per share range Railcar contract loss accruals and closure costs	\$3.46 - \$3.66 0.14
Diluted earnings per share range excluding railcar contract loss accruals and closure costs	\$3.60 - \$3.80
